SKILLS

- Software Development
- Agile Methodologies
- Teamwork
- DevOps
- Effective Communication
- Critical Thinking

LANGUAGES

- English (Fluent)
- Amharic (Fluent)
- Arabic (Basic)

PROFILE

I am a dedicated software engineering student, innovative in programming, and have design elements ingrained in me as a strong base. Now in my fifth year at AASTU, I have learned how to develop with Flutter, Dart, and JavaScript; how to develop APIs with.Net; how to code in C# with academic courses and practical experience. I have developed an app for one of Africa's largest airlines (Ethiopian Airlines). Proven ability to solve problems well, adjust to new technologies, and supply quality solutions. My passion for technology dictates my ongoing improvement of skills and effective participation in software development teams. Looking for opportunities to apply technical skills and develop within a dynamic organization.

WORK EXPERIENCE

Ethiopian Airlines — JULY/2024 - OCTOBER/2024
Software Development Intern

- Developed a high-quality proprietary software application for internal use.
- Utilized DevOps in the project timeline.
- Created user interfaces to ensure a user-friendly experience
- Garnered user acceptance in a meeting of over a hundred high ranking employees around the world.

Ethiopian Shipping and Logistics — SEPTEMBER/2022 - OCTOBER/2022
IT Support Intern

- Worked on the data center being implemented at the time.
- Worked as an IT support team member.
- Helped maintain the smooth work order
- Diagnosed and resolved hardware, software, and network-related issues in a timely manner.
- Responded to IT support requests and provided technical support over the phone and remotely.

EDUCATION

Bachelors of Science in Software Engineering — JUNE/2021 - Present
School of Engineering | Addis Ababa Science and Technology University
